Kumar Ponmani

+91 6281340912 | ponnim05@gmail.com | linkedin | GitHub

Motivated AIML student with a strong foundation in Python, Artificial Intelligence, Machine Learning, and software development. Skilled in Python, SQL, TensorFlow, and Generative AI, with hands-on experience in AI-based projects. Familiar with modern development technologies and eager to apply problem-solving skills to real-world applications. Quick learner with strong communication skills and a passion for building innovative software solutions.

EDUCATION

Prathyusha Engineering College — **Tiruvallur, Tamilnadu**
B.E C S E (AI&ML), CGPA: 8.3 · GPA: 8.3 — *Aug 2023 – Sep 2027*

Sri Chaintanya Junior College — **Tirupati**
12th std · GPA: 9.4 — *June 2021 – Jun 2023*

Vidvas School — **kalur**
10th std · GPA: 9.933 — *Jun 2020 – Jun 2021*

EXPERIENCE

id Thirdeye Technology Solutions — **May 2026 – June 2026**
AIML — *Chennai*

- Gained practical experience by working on real-world technology concepts, strengthening analytical thinking, problem-solving, and technical skills in a collaborative environment.

PROJECTS

AI Chatbot using NLP | *Python, NLP*

- Developed an intelligent chatbot using Natural Language Processing to understand user queries and generate appropriate responses, built using Python and basic NLP techniques.
- Implemented text preprocessing techniques such as tokenization, stop-word removal, and text normalization to improve query understanding and response accuracy.

Handwritten-Character & Number -Recognition | *Python, Flask, React, Vite, TensorFlow, CNN, ML*

- Developed a full-stack web application for real-time recognition of handwritten digits (0–9) and uppercase alphabets (A–Z) using CNN-based deep learning models.
- Integrated Flask REST APIs with ML models and achieved approximately 99.2% accuracy for digit recognition and 93.8% for alphabet recognition.

AI Information Scraper | *Python, Flask, JavaScript, HTML, CSS, LangChain, OpenRouter, Selenium, BeautifulSoup*

- Developed an AI-powered developer toolkit integrating LLM chat testing, developer profile scraping, and AI-based resume generation.
- Implemented AI-driven HTML, PDF, and DOCX resume generation using LangChain, OpenRouter, Selenium, and automated document processing.

TECHNICAL SKILLS

Skills: Python, SQL, Java, React JS, Node.js, REST APIs, Git & GitHub, Machine Learning, Artificial Intelligence, Generative AI, TensorFlow, OOP, Data Structures & Algorithms.

Soft Skills: Good communication Skills, Time Management, Problem Solving, Creativity

CERTIFICATIONS

Anthropic certified in Claude

Google certified in Gen AI

AWS certificate

Infosys certified in Artificial Intelligence For All
